Ms. Daphne Berry
Rocket Oil Company dba Weigel's 82
P O Box 650
Powell, TN 37849

Re: Facility Number: 01-0270

Dear Ms. Berry:

As required by the U.S. Clean Air Act Section 182(a)(3)(B), and pursuant to the Tennessee Air Pollution Control Regulations 1200-03-18-.02(8), the Division of Air Pollution Control is hereby requesting that this letter supplying emissions data be completed, signed by a company official, and returned to the above letterhead address by **March 31, 2016**. Alternately, a scanned version of this document may be submitted electronically to Air.Pollution.Control@tn.gov. This is to satisfy the requirement for submittal by March 31 of the annual emission statement of VOC and NO_x emissions, as requested at this time last year. The requested information is for the calendar year 2015 only.

Please calculate the actual emissions (not potential or allowable emissions) of VOC and NO_x from your facility in 2015 and enter the results as follows:

- a) If either amount is 25 tons or greater, enter the amounts of both pollutants; or
- b) If the amount of each pollutant is less than 25 tons, please enter 'L. T. 25'

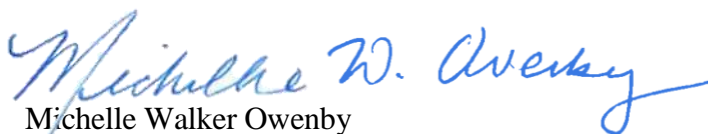

TOTAL 2015 CALENDAR YEAR ACTUAL EMISSIONS:

VOC _____ TONS; NO_x _____ TONS;

If any of the organic compounds used in your facility are exempt compounds (see attached list of exempt compounds), then do not include their emissions in the total 2015 calendar year actual VOC emission calculation.

If you have any questions concerning this matter, please feel free to contact Steven Simpson at (615) 532-0530

Sincerely,

Michelle Walker Owenby
Director

Enclosures:

Certification by Company Official:

I hereby certify the above statement concerning 2015 emissions to be accurate according to my best knowledge of this matter.

Facility Number: 01-0270
